EXPERIENCE

Senior Full-Stack Software Engineer (TypeScript/React) - MNTN (Full-Time, Remote) | Jul 2021 - Present

- MNTN Go: Led **0→1 platform rewrite**; defined architecture, bootstrapped repo, built CI/CD, and integrated with legacy systems while establishing system boundaries and API contracts for scalable, loosely coupled services
- **Owned AdDNA (AI/RAG)** across 10 engineers: designed pipeline; reduced campaign build time and churn (~15%)
- **Deliverability (AI):** Built predictive budget-spend system, increasing revenue by 40% and decreasing support tickets.
- Introduced **micro frontends + BFF**, reducing merge conflicts ~50% and improving team velocity
- Architected Node + GraphQL APIs improving performance up to **90%**
- Designed & owned **CI/CD pipeline + infrastructure (Docker, IaC, AWS/GCP)**, reducing test-build-deploy time by 40%.
- Doubled developer velocity using **AI-assisted workflows** (background agents) and strong system design patterns
- Bootstrapped, tested & shipped flighted budgets feature, boosting seasonal ad revenue up to 30%.

Full-Stack Software Engineer (Node/Vue/REST) - Liquidity Services (Full-Time, Remote) | Apr 2019 - Jul 2021

- **Owned development of warehouse management system**, reducing processing time 20% and saving ~$2M annually
- Designed and implemented internal inventory data-collection tool, improving data lookup efficiency by ~85%
- **Defined API patterns and improved system reliability**, increasing test coverage from 0% → 70%
- Led integration with external systems (e.g., Stripe), eliminating sensitive data storage and improving security posture

Lead SWE Instructor / Curriculum Writer - Multiverse, Fullstack Academy (Part-Time, Remote) | 2019 - 2023

- Wrote & delivered 12-week SWE bootcamp (Google, Verizon, Barclays), generating $10M+ revenue, achieving +70 NPS.
- Led 6 instructors, managed 10-cohort curriculum, and delivered 550+ hours content of live code demo on Web Dev

Network Admin, Assistant Manager, Web Dev - K.Jons Diamonds & Gems Atascadero, CA | until 2018

- Designed and managed major version of company e-commerce site, with 1000+ items, and total inventory value of $800K.
- Increased traffic to site by 100%, and landed site first-position worldwide in Google SERP listings for keywords.

SELECTED AI SYSTEMS

LLM Contact Discovery System (2026)
Built full-stack LLM-powered scraping pipeline to identify and enrich sales prospects across target orgs.

AI Instructor Validation (2025)
Real-time search + webhook system for access control; delivered 85% time savings (~5K hours/year)

AI Office Hours Automation (2025)
OCR + API system integrated with Salesforce; generated $500K+ annual efficiency gains (400% ROI)

ChatDTC Data/Document Chat (2023-24)
Deployed production AI chat platform with $24K ARR, including infra ownership (EC2)
